

GRANTS FOR LITERARY TRANSLATION 2024

RESOLUTION issued on 24 May 2024 by the Director of the Etxepare Basque Institute, which publicises the procedure for awarding grants for literary translation in 2023, approved by the Executive Committee.

Law 3/2007, dated 20 April, on the Creation and Regulation of Etxepare Euskal Institutua / Etxepare Basque Institute (hereinafter EBI) states that the purpose of the Institute is to: "To promote and disseminate Basque culture abroad in any of its official languages, manifestations, formats, means and forms of expression, especially encourage culture created in the Basque language".

Likewise, in accordance with the provisions of Decree 88/2008 of 13 May 2008, which approves the regulation for the organisation and operation of the EBI, the Institute is responsible for disseminating and promoting Basque culture outside the Basque Autonomous Community. Section 19.2.g) of this decree states that the area of action is to promote literature, thought and research in the Basque language through the dissemination scientific thought and research, as well as journals of Basque thought and culture. Moreover, section f) of the aforementioned article establishes that among the functions of the EBI is the design of grant programmes for cultural actors with the aim of promoting Basque creation internationally.

For all these reasons, in accordance with the EBI's area of competence, it has been considered of interest to establish the procedure by which grants are awarded for the translation of literary works written in Basque and works by authors from the Basque Autonomous Community.

These grants, as well as the basic criteria for awarding the grants, were approved by the Executive Committee on 24 January 2024 and are included in the Strategic Plan for Grants of the Department of Culture and Linguistic Policy. The Strategic Plan was approved for 2021-2024 by Order of the Minister of Culture and Linguistic Policy on 18 February 2021, and published on the Department website (<https://www.euskadi.eus/eusko-jauriaritza/-/sail-plana/sailaren-dirulaguntzen-plan-estrategikoa-2021-2024/>).

Whereby

I DECLARE:

Article 1. Objective.

The purpose of this resolution is to publicise the Executive Committee's agreement, which approves, for 2024, the regulation of the grant regime for the translation of:

- a) Literary works written and published originally in Basque into other languages.
- b) Literary works originally written and published in Spanish by authors registered officially in the Basque Autonomous Community into languages other than Basque.

In both cases, only first translations in a specific language will receive funding. In the

In the case of second or subsequent translations, only publishing and promotional work may be funded.

Article 2. Financial resources.

1. The maximum total amount of this call will be sixty-three thousand (63,000) euros. Of this amount, forty-three thousand (43,000) euros will be allocated to translation work and twenty thousand (20,000) to publishing and promotional work.

2. Regardless of the allocation indicated for each category, if the established amount is not fully used, the amount of funding for one category may be increased by means of the remaining funds in another category, as long as no decision has yet been made in regard to this category. To this end, the Director of the EBI will issue a resolution.

3. Two areas will be financed by the call: translation work and publishing and promotional work, in accordance with the following criteria:

In the case of translation work:

a) When there is a basic degree of translation difficulty, 0.018 euros per character, without spaces, based on the source language.

b) When there is an extraordinary degree of translation difficulty, 0.032 euros per character, without spaces, based on the source language.

The assessment committee will determine whether a text is of extraordinary difficulty in terms of language.

In the case of publishing and promotional work:

The maximum amount that a publisher can obtain for publishing and promotional work will be one thousand (1,000) euros. This amount will be calculated on the basis of the score achieved in Article 11 (d) and (e) for the examination of applications. Publishing and promotional work will be understood as editing, layout, printing and publicity activities.

Value-added tax shall not be regarded as eligible expenditure when the beneficiary entity is required to file a VAT return.

3. This applies without prejudice to the general provisions of article 30 of Law 20/2023, dated 21 December, on the Regulation of the Grant System.

Article 3. Award of the grant.

1. The grants under this call for proposals will be awarded through a tender procedure. In order to award the grants thus, applications will be compared and ranked in accordance with the selection and assessment criteria laid down in article 11.

Grants will be awarded starting with the highest-scoring evaluations, in proportion to the

score obtained, provided they exceed the minimum score of 50%, until the available financial resources have been exhausted.

2. A single work may not receive funding for translation into more than three languages during the same year as the call. Should there be more than three applications, the three with the highest score will receive the grant.

3. The calculation of the amount of money which each project can receive will be carried out as follows: the percentage of the score obtained in the evaluation will be applied to the amount of the grant corresponding to the rates established in this call or to the amount specified in the contract (if that amount stated in the contract is lower than that applicable to the call) and the outcome of that will be the aid received.

4. The maximum amount that each application will be able to obtain is eight thousand (8,000) euros. Each applicant is eligible, however, to receive a maximum of twelve thousand five hundred (12,500) euros in this call.

5. In the case of a joint publication, each publisher must request the corresponding part and decisions, payments and justifications will be in accordance with that part.

6. The grants covered by this call will be in line with grants awarded for the same purposes by other public or private institutions, provided there is no over-financing. In the event of over-financing, the amount of the grant will be reduced to the corresponding limit.

Article 4. Beneficiaries.

The following conditions must be met in order to benefit from the grants regulated in this resolution:

- a) Be a natural or legal entity engaged professionally in translation or publication or whose activities include translation or publication.
- b) As regards Spanish translations, in the case of legal entities, they must have their head offices outside the Basque Autonomous Community. Natural persons may be registered in the Basque Autonomous Community, provided that the translation is published by a publishing house based outside the Basque Autonomous Community.
- c) Be registered under the relevant activities heading of the Economic Activities Tax prior to the application deadline, if necessary, in the country in question.

Exceptionally, that condition is not required of translators who translate their own work.

d) Private organisations and foundations with mainly public capital will not be able to apply for subsidies; or an association which does not have a direct connection with the activity of the sector of the corresponding modality.

Article 5. Applicant requirements.

In order to be eligible for aid, applicants must meet these requirements:

- To be up to date with tax obligations and Social Security payments (or their equivalents).

- Applicants to receive the grants provided for in this resolution must not have an administrative or criminal penalty which denies them the opportunity to access public subsidies or assistance, nor a legal prohibition to receive subsidies, including the effects of gender and discrimination, in accordance with the Combined Text of article 23 of the Law for the Equality of Women and Men and to Live Without Male Violence against Women (this Combined Text was approved by Legislative Decree 1/2023 of 16 March).

- To have paid off any obligations to repay grants.

Applicants or beneficiaries will be deemed to have paid their obligations to repay grants if they do not have any debt related to the repayment of subsidies with any public sector organisation in the Basque Autonomous Community during the executive period or, in the case of persons or organisations for whom priority cannot be established, if they do not have unpaid debts during the voluntary period.

Likewise, individuals or organisations will be deemed up to date in paying their obligations for the repayment of grants if the debts are divided or deferred and guaranteed or, due to contesting the resolution of the repayment, it is decided to suspend the debt.

- All these requirements are necessary both to qualify as a beneficiary and to remain so until the grant is paid.

The Administration may therefore consult or obtain these documents unless the party raises an objection. In this case, they shall be accredited by the applicant.

If the applicant is from another country, a certificate accrediting compliance with tax obligations and a Social Security certificate or equivalent must be presented, as well as any other documentation requested, if applicable.
